

**Parsons Computer Lab**  
55 E 13<sup>th</sup>, 3<sup>rd</sup> floor

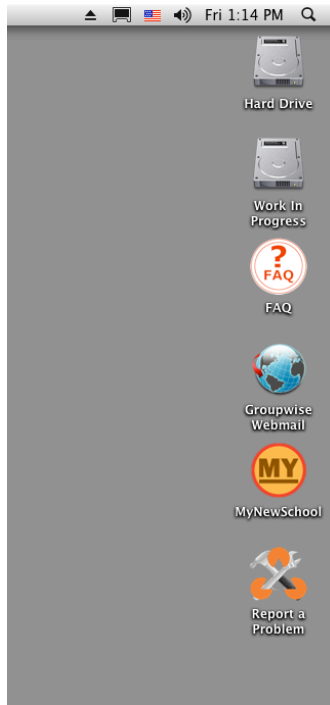

**The Desktop**

Clean,  
organized. I  
love it.

Nothing is on  
the dock  
because all  
programs are  
accessed  
through the  
server or hard  
drive. Students  
are physically  
unable to save  
anything to the  
desktop.

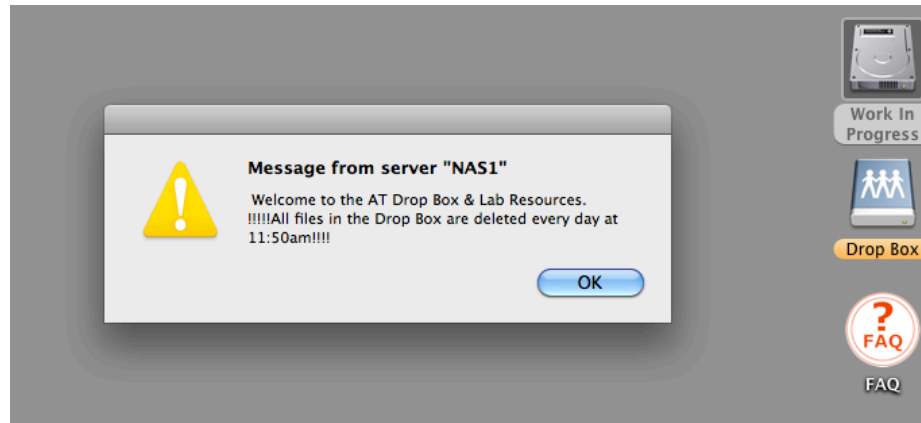

**The “Work in  
Progress”  
drive**

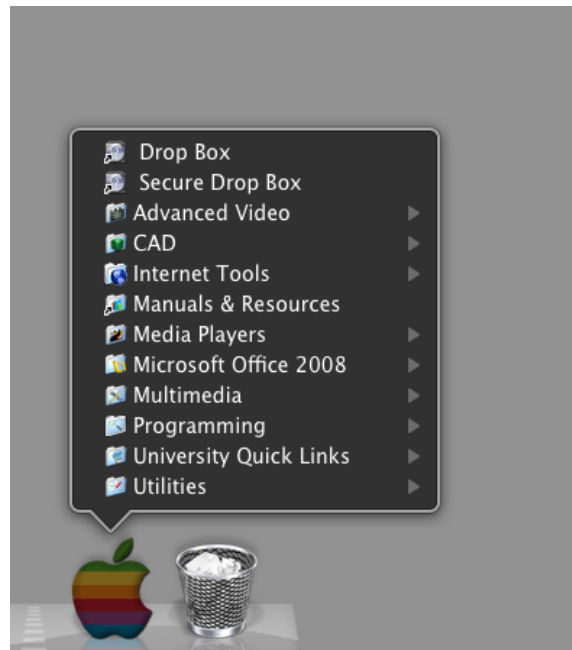

## The temporary "Drop Box" folder.

Automatically deletes every morning and reminds students of this each time they open it.

## The Server

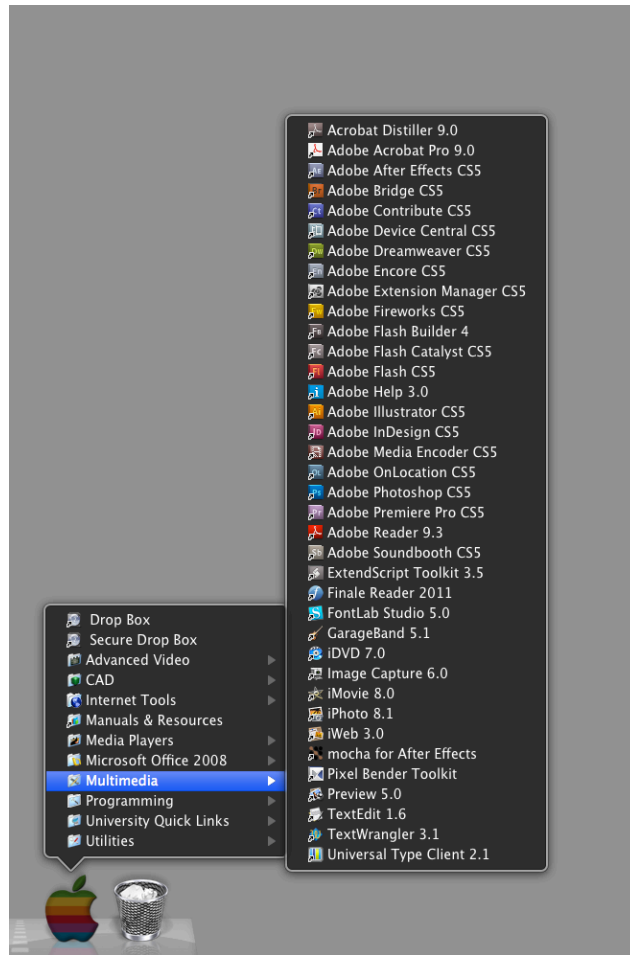

This icon and the Finder icon are the only thing on the dock when the computer is first turned on.

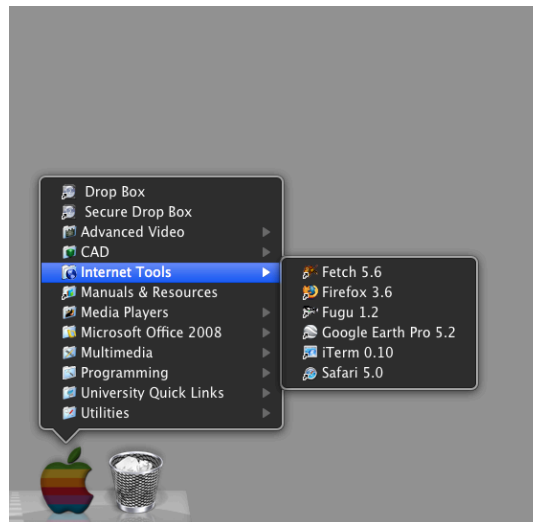

**Their  
Multimedia  
software.**

Wow.

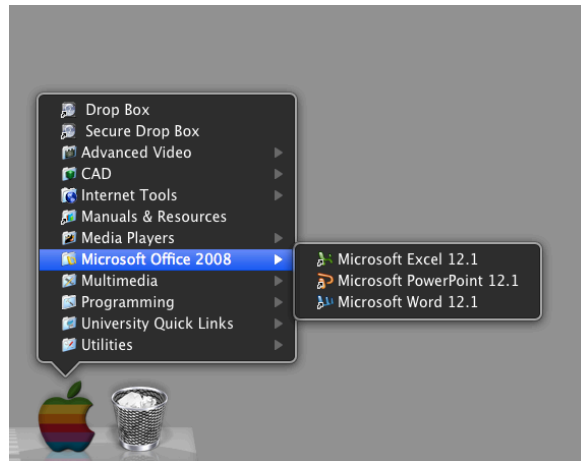

This enables  
updates to  
happen  
quickly and  
affect all  
computers  
simultaneousl  
y.

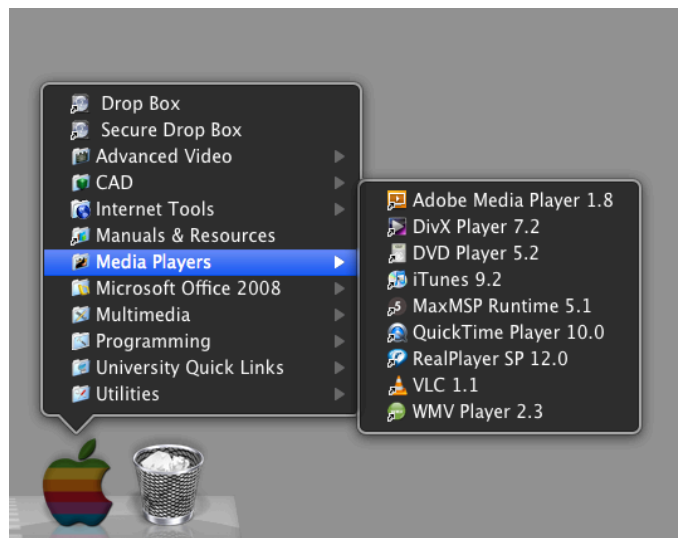

**Web Browsers**

## Microsoft Office software

## Media Players
